Patented  
**WORLD FIRST**  
Multi Purpose  
Spreader

## Multi Spreader

Spreads all manure and granular fertiliser

*At last a spreader farmers have been waiting for! The patented double shutter system handles all types of manure & lime to granular fertilisers. Single disc spreader produces from 3 - 6 metre spread for manure and up to 16 meters for fertiliser.*

Organic Manure Shutter

Fertilizer Shutter

Multipurpose Spreader(Hydraulic Type)

### Easy Loading

Hydraulic tip allows self loading of manure

Tilt over for easy loading of fertiliser

DEALER

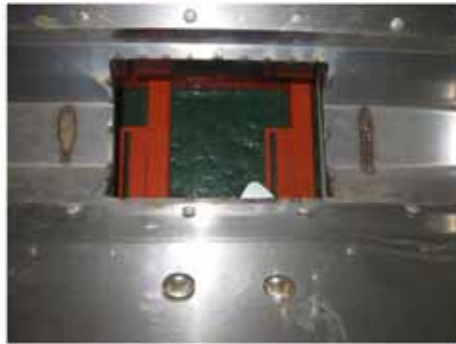

Hydraulic drive or PTO drive available for spinner. Spinner speed controls spreading width

Auger drive pulls material into the hopper outlet. Agitator to stop bridging of material all driven by hydraulic motor.

Shutter One. Shutter vane fully open to allow manure onto spinner

Shutter Two. This shutter has butterfly openings to control granular type fertilisers.

MODEL	
900H	All hydraulic drive.
900P	PTO spinner drive
600P	hydraulic drive to agitators.

HOPPER CAPACITY
1160 Ltr
1160 Ltr
780 Ltr

SPREADING WIDTH
Manure 2-6 metres
Lime 2-8 metres
Fertilisers 3-16 Mtrs

## LIME SPREADER

Trailing ground drive. Stainless steel body.

Drops lime, manures and fertiliser via rotation of the wheels. Sliding adjuster to vary rate.

MODEL	CAPACITY	SPREADER DROP WIDTH
2200	500L	2.0m
200	300L	1.2m
