

ACCUMUL8

NO LONGER DO SMALL BALES MEAN A BIG JOB AHEAD

The Tubeline Accumul8 gives producers time-savings for one of farming's biggest jobs. The Accumul8 is your solution for handling bales efficiently - saving you time and man power. You can now handle eight, ten or twelve bales at one time. This allows one person to quickly gather and load wagons or highway trailers. Keep your farm operating efficiently with the addition of the Tubeline Accumul8.

The Accumul8's mechanical design requires no external hydraulics, PTO or electrical connections. Each bale triggers a series of switches, guiding the next bale into proper location and then releasing the entire pack when full.

Specifications	AC800	AC1000	AC1200*
Bale	8	10	12
Shipping Weight	1,686 lbs.	1,935 lbs.	1,886 lbs.

10 BALE STABLE STACK

Each pack of 10 bales includes 2 bales positioned in the opposite direction. This cross-over pattern strengthens the stack as it builds by tying the bales together.
